Letter of commitment

Ref. SMARTHEP, SEP-210478562

The INFN, Istituto Nazionale di Fisica Nucleare, Sezione di Pisa, itself represented for the purpose of this signing letter by Dr. Marco Grassi director of INFN Sezione di Pisa hereby confirms full support as partner organization, for the SMARTHEP project proposal which aims to train early stage researchers in Multivariate Analysis, Real Time analysis and Hybrid architectures for Event Processing.

In case of success of the SMARTHEP proposal, INFN Sezione di Pisa will:
- Participate to the implementation of the project as a partner;
- Organize a training for the network on FPGAs usage for hybrid architectures;
- Provide office space with a desk and internet connectivity for early stage researcher (ESR8) in secondment from CNRS

We look forward to a very profitable collaboration in the future years.

Yours sincerely,

IL DIRETTORE
Dott. Marco Grassi
